Professor Joshua Lederberg, President  
The Rockefeller University  
New York City, N.Y. 10021

Dear Professor Lederberg:

On behalf of Professor Hans Bethe and the Board of Directors of the Bulletin, I welcome you as a sponsor. We are very pleased that you have associated yourself as a sponsor of the Foundation. Professor Bethe is in Europe for five months but will be in touch with you upon his return. He is planning an editorial for the September issue as the announcement and welcome to the new sponsors.

The Sloan Foundation has awarded a study grant to the Bulletin enabling its editors to visit with individuals and institutions in the United States and abroad. Our intention is to explore with scientists and scholars the political and social aspects of science and technology that are controversial and relevant for evaluation and discussion in the Bulletin. We will focus on involving young scholars and enlist their participation in the formulation of editorial projects and priorities. Although the persistence of the nuclear arms race demands primary attention, other problems should receive more assiduous analysis. I hope that we can meet in the near future to discuss the future direction of the Bulletin. If some occasion seems appropriate, do not hesitate to let me know.

It goes without saying that at any time we welcome your criticisms, suggestions, and writings.

In appreciation and with warm regards,

Ruth Adams  
Editor

Enclosed the By-Laws for the Foundation. For our records, we would appreciate a photo and brief vita. Thank you.
